

British Society for Research into Learning Mathematics

Chair

Sue Gifford, Roehampton University

Secretary

Heather Mendick, freelance

Treasurer

Gwen Ineson, Brunel University

Membership

Rachel Marks, University of Brighton

Conference Proceedings

Fiona Curtis, Reading University

Online Communications

Alison Clark-Wilson, UCL Institute of Education

Pete Wright, UCL Institute of Education

Day Conference Organiser

Natthapoj Vincent Trakulphadetkrai, University of Reading

BERA SIG and Outreach

Alf Coles, Bristol University

BERA SIG & Outreach Report Coordinator's report 2016-17

BERA annual conference

- BERA is organised into Special Interest Groups (SiGs); BSRLM has a link to the "Mathematics Education" SiG. In 2017, this SiG was well represented at the conference, with a full room for every session.
- The BERA conference can be a way to get your work known in other fields and to get to know work in other fields. If you are a BERA member, make sure your details link you to the Mathematics Education SiG to ensure you get communications.
- We would like to encourage individual abstracts as well as symposia of 3 to 4 linked papers for the 2018 conference (in Newcastle). There are no full paper proceedings for BERA and submission is on the basis of the abstract only. If you would like to discuss an idea, please contact Alf Coles or Alison Clark-Wilson.

'PRIME' 2018

BSRLM & the BERA SiG will be running a "Practitioner Research in Mathematics Education" day in the summer of 2018, please look out for this and encourage others to get involved.

Mexico

We are also in communication with a group in Mexico who want to establish a "Mexican Society for Research into Learning Mathematics" modelled on the lines of BSRLM.

Alf Coles, Nov 2017
