Membership Secretary's Report 2015-16

This year I have focused (working with the Treasurer) on filling gaps and updating the membership data ready for transfer to our new database and website. Despite this resulting in some previous members who have not kept payments up to date being removed from the database, our overall membership has continued to rise and membership is now the highest it has ever been.

Membership Numbers

2006	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016
277	297	350	413	374	406	449	435	352	423	467

The figure for 2016 (467) includes 68 concessionary members (student, retired or unwaged).

62 of the 467 members are international members (including those from Ireland). International members pay the same subscription and receive the same member benefits as UK members.

Email addresses

Our database currently holds email addresses which we know to be current for just 272 members (due to changes to affiliated institution, moving from student to staff status etc.). If you have not received recent mailings from BSRLM (such as conference announcements) please do email me as membership secretary with your current email address so this can be updated.

Memberships by PayPal

We have had some difficulty in attributing PayPal memberships to named members, particularly where PayPal payments are made using a personal email address or a different surname (or a payment is made on someone else's behalf). We would encourage all members when making a PayPal payment to add the name under which they are a member in the "instructions to seller" box.

Rachel Marks, Nov 2016
