Research into  
Learning Mathematics

## Outreach Coordinator Annual AGM Report **2026**

**Outreach Coordinator** Jennie Golding, UCL

IOE

Date: 5<sup>th</sup> June 2026

- The Outreach Coordinator is BSRLM's link with BCME10, which will take place 23/24th October, 2026. The programme for that event is now well under way, and promises to be a rich and stimulating one. BCME10 (the British Congress of Mathematics Education) will be based in the East Midlands Conference Centre in Nottingham after a pandemic-induced gap. BCME is a collaboration between BSRLM and the classroom-facing professional organisations in UK mathematics education (from 1<sup>st</sup> December 2025, known as AMiE), and BCME10 has a specific focus on Research and Practice in Partnership. It will replace the usual BSRLM Autumn day conference. Further details may be found at <https://www.bcme.co.uk/> : do join us!
- The BSRLM 2026 New Researcher Award will be decided on the basis of New Researcher submissions to the June 2026 Proceedings. We have clarified selection criteria for this year,

and those will be circulated with the invitation to submit to the Proceedings.

- The BERA Mathematics Education SIG has new coordinators and we are planning a joint BSRLM/BERA online PRiME event (Practitioner Research in Mathematics Education) for May 2027.
- We are in the process of negotiating ways to achieve a closer working relationship with NCETM, and will shortly embark on similar discussions with the emerging AMiE.
